Bulb and Plant Catalogue

OF

C. H. JOOSTEN,

IMPORTER,

No. 3 Coenties Slip, New York.

CONDENSED INFORMATION.

1. Goods delivered free on board cars or steamboat.

2. Import orders should not be sent later than July 15, in order to secure the selections called for. **THEREFORE, ORDER EARLY.**

3. Terms: Bills payable January 1, 1894, with interest on all amounts unpaid on February 1, 1894. Five per cent. discount allowed on **cash with orders** for the full amount.

4. Cash with the order or satisfactory references required from unknown correspondents.

5. Send shipping directions with your orders.

6. Claims for short count not considered unless made within five days after receiving the goods.

7. Count your bulbs and plants as soon as received.

8. I shall keep a large stock of leading bulbs on hand during the season.

9. As heretofore, I will supply good stock, and I will not assume any responsibility for the results of the flowering of the bulbs and plants sold by me, as these may depend upon the manner of cultivation, or want of proper care on the part of the grower, or other causes beyond my control.

10. SPECIAL NOTICE.—I will not be responsible for any losses or damages **resulting from** non-delivery or delay in delivery of bulbs and plants sold by me, if such delays are caused by circumstances beyond my control, such as the acts of God, the elements, epidemics, the quarantine laws enacted by the Government of the United States or foreign potentates, and the like, and all orders entrusted to me, or my agents, are understood to be subject to the above exceptions and conditions.

Yours respectfully,

C. H. JOOSTEN, 3 Coenties Slip, New York.

SELECT ASSORTMENTS OF HYACINTHS.

(Our Choice.)

The following assortments of **extra choice bulbs, true to name,** are offered **at a very low price,** in order to induce buyers to procure these in preference to the cheaper class called "Mixed Hyacinths," the wholesale importation of which has a tendency to lower the class of Hyacinths forced in America—a detriment to both grower and seller.

Azalea Indica.

The yearly increasing demand from my customers has necessitated a large increase of their culture, and this year I have a grand selection, containing over

SEVENTY THOUSAND PLANTS,

thus enabling me to offer special inducements to my friends and patrons to place their orders with me. **Azalea Indica** are never kept in stock by me, but only sold on import orders, October delivery.

It is of great importance to place your orders early in the summer, in order to procure the varieties desired.

Only the leading and most desirable sorts have been cultivated, such as command a commercial value to the grower.

Orders for Azaleas will be filled from the varieties named. As far as possible the sorts selected by my customers will be furnished, but I shall retain the privilege to substitute other equally good varieties to complete the order, if the sorts called for are sold out. Orders will be filled in rotation—"first come, first served." It will therefore be to the interest of intending buyers to **order early.** At the prices stated, the plants will be **delivered in New York,** including all expenses for ocean freight, shipping charges, insurance, custom-house entry, etc. This avoids for my customers all the annoyance and delay of importing.

Fostite.

Acknowledged by prominent Horticulturists and Florists, after one year's trial in different sections of the country, to be **the best Preventive against Mildew, Black Rot and Cryptogamic Diseases of Fruits, Plants and Flowers,** especially for the Downy Mildew and Black Rot on Grapes, Roses, Carnations, Chrysanthemums, Verbenas, Cinerarias, Vegetables, etc., etc.

Fostite is also an Enemy to Insect-life. It is entirely harmless to men, animals and plants, and can be handled with safety.

Among the large number of testimonials I will, for want of space, only mention here a few from practical men, well-known to the trade:

FOR MILDEW ON GOOSEBERRIES AND ROSES.

Professor Samuel B. Green, Experiment Station, St. Anthony Park, Minn.— " Have used **Fostite** on gooseberries for mildew with very good success. Have used it also on roses affected with mildew in the greenhouse **with most excellent results.** We also used powdered sulphur, but got **by far the best results** with **Fostite.** I regard this preparation as a very convenient, effective and safe form of using sulphate of copper. It adheres with great firmness to the leaves. We have been so successful where we have used it, that I regret that we did not use it on a more extensive scale."

FOR CARNATION RUST.

C. W. Ward, of East Moriches, New York, Carnation Specialist, in his Wholesale Trade List of 1893, fully discussing the treatment of Carnation diseases, recommends **Fostite** as one of the preventive remedies to insure freedom from disease.

John H. Taylor, Bayside, L. I., N. Y.—"It gives me great pleasure to be able, after a trial of several months, to **endorse all you claim** for **Fostite;** I think it is the best preventive for mildew and other fungoid diseases yet introduced.

" Your new bellows fill a long-felt want, as they are compact, light and easily handled."

FOSTITE AT THE HORTICULTURAL GROUNDS OF THE WORLD'S FAIR, CHICAGO.

Copy of Letter from John Thorpe, Esq., Chief of Department of Floriculture.

I have great pleasure in saying that the Fostite sent to the Department of Horticulture, World's Columbian Exposition, during last summer, to experiment with, was applied upon Roses, Hydrangeas and Ampelopsis to my **utmost satisfaction; in particular** to **White Mildew** on **Roses.** It was most effective of any I have ever seen. (Signed) John Thorpe,
Chief Department of Horticulture.

APPLYING FOSTITE WITH JOOSTEN'S MAGAZINE VINEYARD AND FARM BELLOWS.
STYLE NO. B.

JOOSTEN'S MAGAZINE BELLOWS.

Fostite is best applied by means of **Joosten's Magazine Bellows,** patented in this country and Canada. The small or hand Bellows, **No. A,** is especially adapted for use in greenhouses and on small farms, for distributing Fostite, Hellebore, Slug Shot, Sulphur, Paris Green, etc. (See cut, page 26.)

The larger or Vineyard Bellows (**Style No. B**) are especially for use in the vineyard, nursery, orchard, and on the farm, where a large acreage is to be dusted. According to French reports, five acres per day can be dusted with these Bellows. The magazine holds about 10 lbs. of Fostite, and weighs, when filled, about 15 lbs. It is adjusted to the shoulders and the body by straps, thus relieving the arms of a tiresome weight.

GOOD WORDS FOR JOOSTEN'S MAGAZINE BELLOWS.

JOHN THORPE, Chief of Bureau of Floriculture, World's Columbian Exposition, Chicago, Ill.—"The bellows are the best thing of the kind ever invented."

EDWIN LONSDALE, Philadelphia Pa.—"I like Magazine Bellows as a powder distributor."

J. E. MATTHEWSON, Madison, N. J.—"The Magazine Bellows is the best powder duster ever invented."

GEO. W. ENDICOTT, Villa Ridge, Ill.—"The Bellows is a grand success for any kind of powder like Paris Green for potatoes, Hellebore for cabbage, etc."

PROFESSOR F. LAMSON SCRIBNER, Director Experiment Station, Agricultural College, University of Tennessee, Knoxville, Tenn.—"The Bellows received from you is the best for the purpose intended that I have seen. It is cheap, does its work well and economically, and is thoroughly practical."

APPLYING FOSTITE WITH JOOSTEN'S MAGAZINE BELLOWS. STYLE NO. A.

DIRECTIONS FOR APPLYING FOSTITE.

After syringing the plants, **Fostite** should be applied to Roses, Carnations, etc., by means of bellows, in sufficient quantity to show its presence on the foliage and stems, once or twice per week, until the disease has been checked.

SPECIAL IMPORTANT NOTICE.—Owing to large loss of plants in Holland during the past winter, orders for the Boskoop plants will only be accepted subject to my ability to furnish the stock. **Hereafter I shall not keep in stock, in New York, any Roses, Clematis or other Boskoop plants, but will only supply (if possible) on Import Orders for Fall or Spring delivery.**

Dealers should, therefore, not fail to send in their orders early, so as not to lose trade for want of stock, when needed in Spring.
